

Seamless and Secure Global Payments

Veem is your easy, secure, and transparent global payments solution built for small businesses. Veem has integrated with QuickBooks Online to give you a streamlined process for sending, receiving, and requesting international payments. Easily reconcile information between platforms and automatically create bills in QuickBooks when sending payments with Veem.

Benefits to the business

Easily send any sized payment in a few clicks.

Easy sign-up built for small businesses. Enter some banking and personal information, and you're ready to send and receive payments.

Simple, accurate payment tracking.

Never lose another payment. Using their own payment tracker, users can see where their payment is, when it left and when it will arrive.

Stellar customer service. Global payments can be frustrating. Our customer service team is available for you and your clients whenever they're needed.

Dedicated account managers.

Our small business users will work with a dedicated account manager to ensure their needs are met and no information is lost in translation.

Secure international payments and reliable compliance framework.

Our secure network ensures your payments arrive on time and in full. Blockchain technology and machine learning combine to create a safe and efficient payment experience.

Benefits to the accountant

Automatically reconcile accounts payable and receivable from Veem to QuickBooks Online.

No more switching between platforms. Payments made in Veem are automatically entered into QuickBooks for fast, accurate documentation.

More clients, more benefits.

The more clients you bring onto the Veem platform, the more we provide to you - MVP status, customer highlights and even the odd swag bag!

Your Own Account Manager.

Your personal account manager is focused specifically on our accounting partners with all the know-how and answers you need.

Send, Receive and Request On Clients' behalf.

Use your Veem account to manage all of your clients' global payments. We'll say it again - no more switching between platforms!
