

Take the Pain out of Payables!

Circulus is your simple, powerful and affordable solution for all things bill pay. Circulus provides a centralized location for your invoices, expense reports, supporting documents and notes. The powerful workflow, role-based permissions and seamless QB integration gives you a 360-degree view of your AP operations available to you and your team 24/7.

Benefits to the business

Circulus offers accountants with a valuable tool to help not only streamline internal operations, but to also expose clients to technologies valuable to their business. From a simple enter-and-pay process to complex review and approval flows, Circulus can scale to meet the needs of all your clients. In addition, the Circulus platform offers the flexibility for your firm to play a range of roles for your clients - from simply entering or approving bills, all the way to managing client payables entirely.

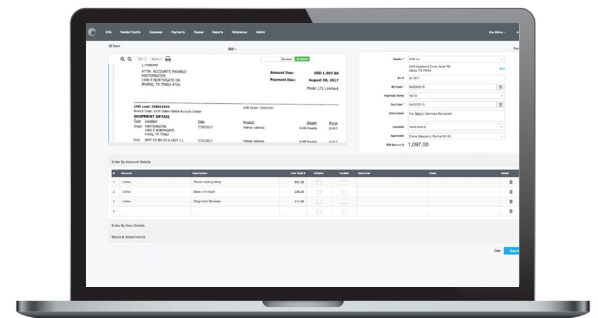

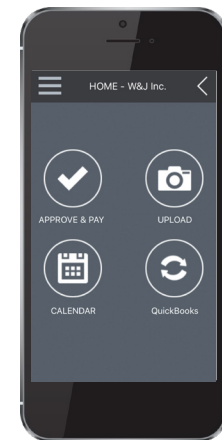

With configurable workflow options and user permissions, you can choose the options to best fit each of your clients individually, each of which being accessible from a single portal.

From an extensive video tutorial library to best practice guides and personalized complimentary onboarding sessions, we're here to make sure you get the most out of your experience. Our dedicated support team is available to train the accountants and users within the firm.

Benefits to the accountant

Circulus provides a 24/7 link between clients and their AP process. By operating via cloud, significant time and effort can be saved by operating digitally, at any time and from any location. Clients can work

together with their accountant to set up the optimal workflow and duties of each, in order to create the most seamless payment process to track any activity within the platform.
