

Expense reports that don't suck!

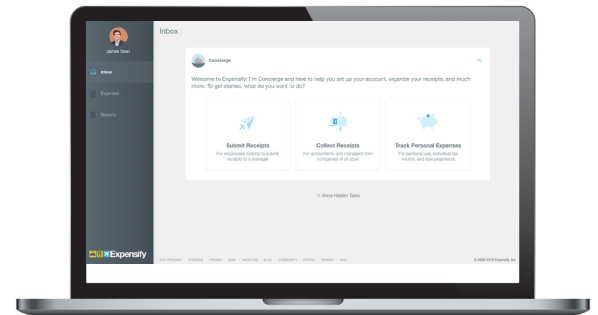

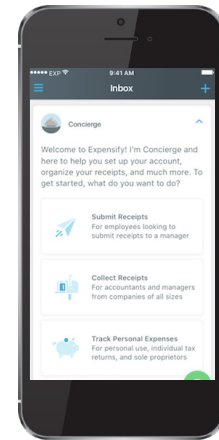

Expensify is the #1 user-rated expense management app for accountants and their clients. Expensify offers receipt and distance tracking, expense reporting, credit card reconciliation, and more - all synced automatically with QuickBooks.

Benefits to the business

Easy-to-use Expensify mobile app. Snap a photo of any receipt on the go and throw it away while SmartScan automatically extracts the merchant, date, currency, and amount.

Built-in GPS distance tracking. Log miles or kilometers on the road in one tap with the Expensify mobile app to automatically create beautiful, route-based map expenses.

Automatic credit card import. Expensify pulls in personal and corporate card transactions, then merges matching SmartScanned receipts automatically for report-ready expenses.

Benefits to the accountant

Centralized digital receipt storage. No more piles of client receipts! Automatically store and manage clients' digital receipts in the Expensify mobile and web apps.

Easy corporate card reconciliation. Centrally import, assign, and manage corporate and commercial card feeds for total visibility and easy reconciliation in Expensify.

Real-time, bidirectional QuickBooks sync. Configure expense coding for each Expensify policy to QuickBooks expense accounts, customers/jobs, classes, locations, and items.
